MARKINGS TO SHOW CHANGES MADE

5. A polycarbonate-based nonflammable resin composition as defined in ~~any of Claims Claim 1 to 4~~, characterized in that the alkoxy group-containing organopolysiloxane (C) includes a branched structure.
6. A polycarbonate-based nonflammable resin composition as defined in ~~in any of Claims 1 to 5~~, Claim 1 characterized in that the alkoxy group-containing organopolysiloxane (C) contains substantially no silanol groups (SiOH).
7. A polycarbonate-based nonflammable resin composition as defined ~~in any of Claims 1 to 6~~ Claim 1, characterized in that R¹ of the alkoxy group-containing organopolysiloxane (C) is a methyl group, ethyl group, or phenyl group, and the phenyl group content is at least 20%.
8. A polycarbonate-based nonflammable resin composition as ~~defined in any of Claims 1 to 7~~, Claim 1 characterized in that R² of the alkoxy group-containing organopolysiloxane (C) is a methyl group or ethyl group.
11. A polycarbonate-based nonflammable resin composition as defined ~~in any of Claims 1 to 10~~, Claim 1 characterized by further containing (D) an anti-drip agent in an amount of 0.01 to 10 weight parts per 100 weight parts of the polycarbonate-based resin (A-1) or per combined 100 weight parts of the polycarbonate-based resin (A-1) and the thermoplastic resin (A-2).
13. A polycarbonate-based nonflammable resin composition as defined ~~in any of Claims 1 to 12~~, Claim 1 characterized by further containing (E) an alkali (alkaline earth)

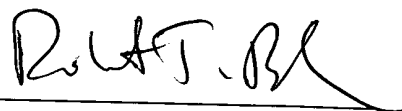

metal salt of a perfluoroalkanesulfonic acid in an amount of 0.01 to 3 weight parts per 100 weight parts of the polycarbonate-based resin (A-1) or per combined 100 weight parts of the polycarbonate-based resin (A-1) and the thermoplastic resin (A-2).

14. A polycarbonate-based nonflammable resin composition as defined ~~in any of Claims 1 to 13~~, Claim 1 characterized by further containing (F) an epoxy-based stabilizer in an amount of 0.01 to 5 weight parts per 100 weight parts of the polycarbonate-based resin (A-1) or per combined 100 weight parts of the polycarbonate-based resin (A-1) and the thermoplastic resin (A-2).

16. An electrical or electronic device part formed from a nonflammable resin composition as defined in ~~any of Claims 1 to 15~~ Claim 1.

17. A molded article composed of a nonflammable resin composition as defined in ~~any of Claims 1 to 15~~ Claim 1.

Respectfully submitted:

Robert T. Barker
